### PROFILE

Aspiring Software Engineer and AI & ML undergraduate with a strong foundation in full-stack development using the MERN stack (MongoDB, Express.js, React.js, Node.js). Passionate about building scalable applications and exploring emerging technologies, with a focus on AI and machine learning. Known for quick learning and problem-solving, with a commitment to professional growth in tech.

### WORK EXPERIENCE

#### CodTech IT Solutions

SEP 2024 - OCT 2024

#### Web Developer Intern

- Collaborated with the development team to design and build responsive, user-friendly web applications.
- Contributed to key projects including a blogging platform, OTT site, and dynamic e-commerce website.
- Gained hands-on experience with HTML, CSS, JavaScript, and basic backend technologies in real-world projects.
- Worked in a fast-paced Agile environment, actively participating in code reviews and team discussions.
- Adapted quickly to new tools and workflows, demonstrating strong problem-solving and self-learning abilities.

### PROJECTS

#### Stay Out Safe(SOS) : A woman safety web application

- Developed a safety web app with real-time SOS alerts and live tracking using Google Maps.
- Built the backend with Node.js and MongoDB for secure data handling and fast response.
- Focused on enhancing women's safety through quick, reliable, and privacy-first features.
